PROFILE

Final-year Computer Science and Engineering student at North South University, Dhaka, majoring in Cybersecurity and Networking. My GitHub work includes network intrusion detection, an adaptive IoT honeypot, a secure messaging prototype, and English/Bangla SMS spam classification. I also build full-stack applications and CLI tools - from a MERN marketplace with SSLCommerz payments to a real-time LSTM behaviour detector. Previously worked as a Customer Care Representative at ASL BPO and volunteered as IT support on an NGO project. Actively seeking cybersecurity, networking, and software engineering internships.

EDUCATION

B.Sc. Computer Science and Engineering (CSE) | 2021 - Present

North South University - Dhaka, Bangladesh

Major: Cybersecurity and Networking. Coursework: Web Technologies, Algorithms, Database Systems, Software Engineering, Machine Learning, OS, Networks, Network Security

Higher Secondary Certificate (HSC) | Completed

Ispahani Public School and College - Dhaka, Bangladesh

Science stream. Served as Class Representative (CR).

SELECTED CYBERSECURITY PROJECTS

ML Network Intrusion Detection

Python | Scikit-learn | Pandas | Machine Learning | Cybersecurity | Security

A machine-learning system designed to identify normal and suspicious network activity. Classifies network activity with preprocessing, anomaly detection, and threat scoring.

[github.com/saimumadi00-sketch/ML-Based-Network-Intrusion-Detection-System](#)

Adaptive IoT Honeypot

Python | Flask | SQLite | Cybersecurity | Security | IoT

Safe local starter for an adaptive IoT honeypot with fake device services, behavior logging, attack classification, and a Flask dashboard. Captures simulated HTTP, shell, MQTT, and Telnet activity with exportable event data for lab analysis.

[github.com/saimumadi00-sketch/IoT-honeypot](#)

Post-Quantum Secure Messaging

React | Vite | Tailwind CSS | JavaScript | Cryptography | Security

React and Vite secure messaging interface exploring post-quantum security concepts with a Tailwind CSS frontend. Creates a focused frontend foundation for experimenting with quantum-resistant messaging workflows.

SELECTED APPLIED PROJECTS

SpamCheck - SMS Spam/Ham Detector

Python | FastAPI | Scikit-learn | TF-IDF | Machine Learning | Security

English and Bangla SMS spam classification using word and character TF-IDF features with a locally trained Logistic Regression model. Serves local predictions through FastAPI with a bilingual interface; the Bangla training set is a small, template-generated seed dataset.

github.com/saimumadi00-sketch/spam-ham-miniproject

Crosscurrent - Yard 07

JavaScript | WebGL | Three.js | Node.js | Networking | Game

A browser FPS with offline bot training, a customizable squad lobby, and private multiplayer for Team Deathmatch and Conquest. Implements server-authoritative matches, streamed snapshots, room codes, and desktop/touch controls for private multiplayer; public matchmaking remains simulated.

EXPERIENCE

Customer Care Representative | Mar 2023 - Jul 2023

ASL BPO - Night Shift

- Handled customer queries and complaints on a night-shift schedule
- Used Salesforce CRM to log and resolve customer issues
- Developed strong communication and client service skills under high-pressure conditions

IT Support Volunteer | 2022

NGO Project - Forestry Department, Sreemongol

- Provided IT support for an NGO environmental project organized by the Forestry Department of Bangladesh
- Managed technical equipment and assisted field teams with data collection and documentation

SKILLS

Security & systems: Linux, Kali Linux, POSIX Threads, Multithreading, Synchronisation, Network Security, Network Traffic Analysis, Vulnerability Assessment, Network Intrusion Detection, Security Logging

Programming: C, Python, JavaScript, HTML, CSS, SQL

Web development: React, Vite, Node.js, Express.js, Bootstrap, REST APIs, MongoDB

Machine learning: TensorFlow, Keras, Scikit-learn, OpenCV, MediaPipe, YOLO, BiLSTM, Transformers.js

Tools: Git, GitHub, VS Code, Google Colab, Kaggle, npm, Vercel, AWS, Kali Linux, Wireshark, Nmap, Burp Suite, Metasploit

LANGUAGES

Bengali (Native) | English (Advanced)
